

## AJJ Healthcare Management Secures framework agreement with NUS for Laboratory and Life Sciences Solutions

**Singapore – 2nd January 2024:** AJJ Healthcare Management, a subsidiary of OEL (Holdings) Limited, is excited to announce its new framework agreement with the National University of Singapore (NUS) to supply laboratory and life sciences solutions. This agreement, vital to our In-Vitro Diagnostics (IVD) business segment, will run until 2026 and marks a significant achievement in our mission to support advanced research and development in the healthcare field.

Our collaboration with NUS signifies not just a business achievement but also our commitment to supporting the next generation of laboratory and life sciences research. By providing state-of-the-art equipment and single-use products, we are setting the stage for advanced research at NUS. Our range of single-use products is tailored to meet the day-to-day needs of researchers and scientists at NUS, supporting their essential work in medical science and healthcare research.

The contract with NUS is a testament to the progress we have made over the past three years since the inception of AJJ Healthcare Management, particularly in building a brand associated with quality and excellence in healthcare and laboratory solutions. This partnership will further enhance our reputation as a provider of high-quality products and services in the healthcare, laboratory, and life sciences industry.

"We are thrilled with this framework agreement with NUS," said Dr. Tan Weijie, Phd, Business Development Manager at AJJ Healthcare Management and the leader of this framework agreement. "It aligns perfectly with our goal of advancing healthcare through turn-key supply chain solutions. The framework agreement with NUS is a strong example of how we are contributing to the healthcare sector and supporting important research that can lead to significant medical breakthroughs."
